

FACE VALUE

Every day, whether we like it or not, we see our faces in the mirror! This is the best way we have of recognizing friends and strangers. From rock engravings and masks to formal portraits or vacation groups, people have depicted faces for thousands of years. In this relaxed class we look at ways of unraveling the mystique of portraying faces in fabric and thread. **An ability to draw is NOT required** for this fun approach to observation and free-style appliqué as students layer fabrics to make a small quilt. Emphasis will be on fusing, appliqué and machine and hand thread work.

You may work by hand or machine or both, so choose your supplies accordingly
